

Trumari® Executive Leadership

Wayne Millage **President**

As Founder & President, Wayne Millage oversees all operations at Trumari, the premier U.S. manufacturing and distributing source of the Lama, an award-winning instant foldable display solution revolutionizing how companies display their brands. He also engages closely with the company's marketing department and oversees all branding and advertising activities.

With more than thirty years' experience in the printing industry, Wayne also serves as President of AllpakTrojan, the award-winning print and packaging company that is parent company to Trumari.

Wayne is involved with numerous industry organizations, including the Association of Independent Corrugated Converters, TAPPI, POPAI (The Global Association for Marketing at Retail) and Pacific Printing Industries (PPI). He is also committed to giving back to community organizations including Toys for Tots and various local food banks.

Bruce Hutcheon **Vice President**

As Vice President at Trumari, Bruce Hutcheon is responsible for helping to direct and oversee the entire Trumari team, including the sales division. He derives satisfaction through watching the team succeed and secure new accounts.

With more than thirty-five years experience in the packaging, point-of-purchase (POP) and retail sales industries, Bruce has been at Trumari since the company's inception, and worked at AllpakTrojan for 40 years prior to that. He is most proud of the work the company has done with Lama clients Oberto, Tecate and Kellogg's.

A native of Vancouver, B.C., Bruce enjoys spending time with his family in his free time, as well as golfing, fishing and looking at nice cars.

David Hamilton Roberts **POP Director**

As POP Director at Trumari, David Hamilton Roberts is responsible for generating sales, assisting the sales team and ensuring things run smoothly. An original team member, Roberts also worked previously with AllpakTrojan for eleven years.

Prior to joining Trumari, Roberts produced large-format color prints and color panels for the trade show industry at Seattle sign and display company, The Copy Machine. He enjoys working with the Lama not only because it is a beautiful way to promote a company's brand, but because it's so easy to deploy correctly. He is especially proud of the four-shelf golf ball display he helped Wilson Sporting Goods create to showcase 24-dozen golf balls, which was a huge visual success and provided significant cost-savings to the client in shipping.

A native Seattleite, Roberts attended Scottsdale Community College in Arizona, where he pursued a degree in Communications. In his free time, he enjoys golf, tennis and fishing, volunteering with the local high school golf team and spending time with family.
